SECTION VII PREVENTIVE MEASURES

Personal protective equipment: Wear safety glasses or safety glasses to prevent eye contact. Wear appropriate gloves and protective equipment to prevent skin contact. Utilize respiratory equipment to prevent exposure to product vapors/mists.

Engineering controls: Utilize ventilation as required to control vapor concentrations-at least 10 air changes per hour are recommended for good, general room ventilation.

Leak and spill procedures: Evacuate area of unprotected personnel. Remove ignition sources. Utilize appropriate personal protective equipment. Shut-off/remove spill source if safe to do so. Dike and contain. Soak up/recover spilled materials and place in sealed/marked containers for disposal.

Waste disposal: Observe all Provincial, Federal, State, and Local regulations regarding proper disposal.
