Turn Your Old Tired Floor Into A New Work Of Art

Whatever your needs...

**we have the
solution.**

#BR-13

FLOOR-TOP STG

Turn your old floor into a new work of art with **FLOOR-TOP STG** from **W. R. MEADOWS**.

A standard traffic-grade, single-component, shrinkage-compensated, self-leveling floor topping and premium underlayment that may be pumped or poured. **FLOOR-TOP STG** is specially designed to smooth out uneven, rough or minor deteriorated interior concrete floors.

This product is ideal for smoothing and leveling concrete and rigid-based interior substrates, either before the application of a floor covering, or as a finished floor. **FLOOR-TOP STG** cures to a hard, traffic-wearing surface suitable for foot and light rubber-wheeled traffic. **FLOOR-TOP STG** may be color enhanced with an inorganic liquid tint, topical coating or acid stain.

The light grey color of FLOOR-TOP is an ideal canvas for liquid tints, topical coatings, and acid stains or dyes. Create a finished, decorative floor that is only limited by your creativity. This ability to rehabilitate and also enhance the aesthetic look of the finished floor creates a one-two punch. Not only fix, but also make the floor look better than the original.

FLOOR-TOP STG makes your floor a new canvas for your art. Now get your creative juices flowing and create a masterpiece!

Features and Benefits

- Light grey color.
- May be applied up to 1" thick in a single application.
- Single-component; only requires addition of water.
- Superior flow – may be poured or pumped.
- Self-leveling properties reduce labor costs.
- Non polymer formulation readily accepts stains and color.
- Accepts early foot traffic (four hours).
- Floor covering may be installed in as little as 18 hours.
- May be used with radiant heating floor systems.

Application Made Easy

Installing **FLOOR-TOP STG** is easy. The product is self-leveling, so no labor intensive troweling is needed. Just place **FLOOR-TOP STG** onto the substrate and screed with a gauge rack. However, a few surface preparations and priming steps are required. **FLOOR-TOP STG** may be sanded to achieve the desired final appearance. Please read our data sheet, available at www.wrmeadows.com, for full application instructions.

A floor finished with **FLOOR-TOP STG** creates a rehabilitated, aesthetically pleasing surface.

Durability That Lasts

A floor finished with **FLOOR-TOP STG** looks great, and is only matched by its exceptional durability. You want this unique, restored, decorative floor to keep up, and with **FLOOR-TOP STG**, it will. This finished floor, once hardened, will be suitable for foot and light rubber-wheeled traffic. A residential and commercial interior application, where foot traffic is standard, is a perfect and safe application.
