TF-1

*Deteriorated concrete?  
Scaled concrete?  
Is your concrete  
showing its age?*

**MEADOW-PATCH® T2**  
**Concrete Resurfacer**

**Turns Back Time**

# BEFORE, YOUR ONLY OPTION WAS TO REMOVE AND REPLACE ... UNTIL NOW.

MEADOW-PATCH T2 concrete resurfacer is an economical way to avoid removing minor deteriorated, spalled, scaled and/or defective concrete slabs. After application, MEADOW-PATCH T2 dries to a light gray color, similar to concrete's appearance.

Add custom colors to MEADOW-PATCH T2 to create your own unique vision. The addition of color to the product and the ability of the product to be used in stenciled overlays and decorative stencil systems gives you the freedom to design your own distinctive look.

MEADOW-PATCH T2 is a cement-based, polymer-modified, two-component concrete resurfacer engineered with the following features to ensure durability:

- Easy to apply, creamy consistency
- High compressive strength
- High wear resistance
- Freeze-thaw stable
- Applies from 1/16" to 1/4" in thickness
- Can be finished in different styles (broom, knock down, smooth, etc.)
- Sandable & paintable
- Can be wet sprayed
- Can be used as part of a stenciled overlay
- May be pigmented using standard concrete colors
- May be sealed for added protection
