#1 in Sealers and Vapor Barriers

Since 1926, architects, engineers, contractors and building owners have used W. R. MEADOWS products to meet a multitude of construction application needs. From highway construction and repair, building construction and restoration, to waterproofing, vaporproofing, air barrier products and more, W. R. MEADOWS products have you covered. **Quality... Integrity... Service...** three words synonymous with MEADOWS high-performance products.

Our varied line of concrete sealers is known throughout the industry to be the absolute best. Contractor proven and time tested, some of our sealer options include:

DECRA-SEAL™— non-yellowing for decorative concrete

LIQUI-HARD®— penetrating sealer and densifier

VOCOMP®— series of water-base acrylic cure and seals

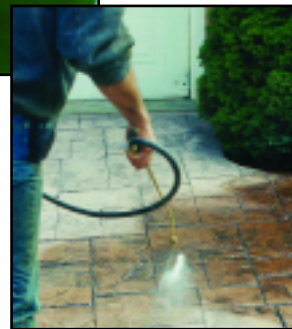

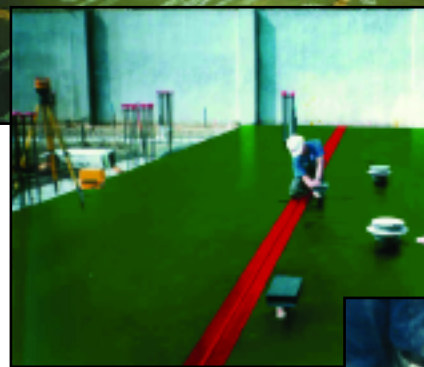

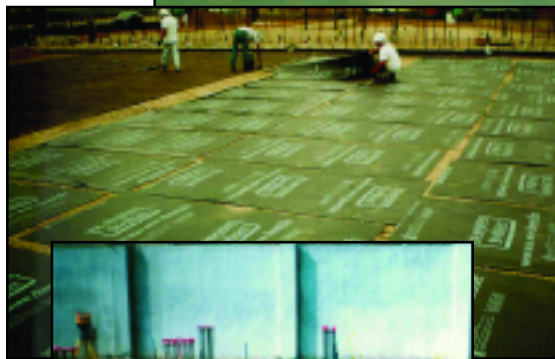

W. R. MEADOWS vapor barriers and retarders lead the industry in water vapor permeance ratings, puncture resistance and tensile strength characteristics. Whether you need an above-grade or below ground solution, we have the answer:

PREMOULDED MEMBRANE® VAPOR SEAL with **PLASMATIC® CORE** vaporproofing system

PERMINATOR™ 10 and 15 mil vapor mat membranes

AIR-SHIELD™ and **AIR-SHIELD LM** air and moisture membranes
