SEALTIGHT CLEANER

DESCRIPTION

SEALTIGHT CLEANER is an aromatic solvent with a high KB value for numerous uses, from equipment cleaning to membrane removal.

USES

SEALTIGHT CLEANER is especially suited to aid in the “cutting” and cleaning of difficult to dissolve synthetic resins, such as acrylics, and high molecular weight polymers, such as polysulfide and polyurethane, as well as epoxy mortars. Primary applications include:

- Clean up of tools and equipment, such as hand tools, caulking guns and spraying equipment.
- Removal of resin-based curing membranes and sealers from floor surfaces.
- Breakdown of oil, grease and tar build-up.
- Assists in correcting “blushing” of acrylic sealers.

Resin or polymer removal is easiest if the material has not hardened. Removal from floor applications will be facilitated if the coating surface has been scored and scratched.

SHELF LIFE

When stored indoors in original, unopened containers at temperatures between 40° - 90° F (4° - 32° C), optimum performance and best use is obtained within two years of date of manufacture.

PACKAGING

1 Gallon (3.8 Liter) Cans
5 Gallon (18.93 Liter) Pails

PRECAUTIONS

Product is flammable – contains xylene. Keep away from open flame, ignition sources and excessive heat. Keep containers closed when not in use. Store in cool/dry area, away from ignition sources.

Use only in well-ventilated areas. If HVAC intake ducts will distribute solvent odor into adjoining occupied areas of the building, care should be taken to block these ventilation vents.

HEALTH AND SAFETY

Harmful or fatal if swallowed. Always wear protective clothing (rubber gloves, eye protection, etc.). Refer to Safety Data Sheet for complete health and safety information.
