

# DECRA-SEAL™ NATURAL

Water-Based Enhancer and Water Repellent Sealer

Low-VOC penetrating water-repellent and concrete enhancer seals while preserving the natural look of the substrate

**DECRA-SEAL NATURAL is designed for various applications, including interior, exterior, horizontal, and vertical concrete and masonry surfaces, unglazed tiles, and a variety of porous natural and artificial stone applications.**

follow us:

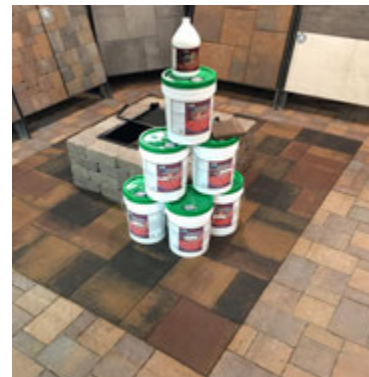

**DECRA-SEAL NATURAL** is a low-VOC, water-based sealer that enhances the natural color and features of decorative concrete and hardscapes, unglazed tiles, concrete pavers, and a variety of porous natural and artificial stone. DECRA-SEAL NATURAL is a penetrating water repellent that chemically bonds to the substrate, increasing the service life by providing protection against deterioration or staining from water.

#### FEATURES/BENEFITS:

- Enhances and enriches the colors of the substrate
- Does not create a glossy finish, preserving the natural look of the substrate
- Repels water
- Reduces water absorption and penetration into the substrate
- Low VOC
