DECRA-SEAL™ NATURAL
Water-Based Enhancer and Water Repellent Sealer

Low-VOC penetrating water-repellent and concrete enhancer seals while preserving the natural look of the substrate

DECRA-SEAL NATURAL is a low-VOC, water-based sealer that enhances the natural color and features of decorative concrete and hardscapes, unglazed tiles, concrete pavers, and a variety of porous natural and artificial stone. DECRA-SEAL NATURAL is a penetrating water repellent that chemically bonds to the substrate, increasing the service life by providing protection against deterioration or staining from water.

FEATURES/BENEFITS:
• Enhances and enriches the colors of the substrate
• Does not create a glossy finish, preserving the natural look of the substrate
• Repels water
• Reduces water absorption and penetration into the substrate
• Low VOC
