## W. R. MEADOWS LOW VOC AIR BARRIERS

W. R. MEADOWS continues their long-held commitment to producing products and systems that meet the most current federal, state and local rules and regulations, and that will have a positive impact on the environment for both current and future generations. Our products are designed to protect your work and our world.

W. R. MEADOWS has always been concerned about the environment. Nearly two decades ago, the GREEN LINE® of environmentally responsible products/systems for concrete performance was introduced. We focused our research and development on true water-based products that performed even better than the solvent-based products that came before them – all while being safer for the environment and easier to apply.

W. R. MEADOWS is proud to announce our full line of zero to low-VOC air barriers to meet today's most stringent regulations. This line includes both prefabricated sheet and liquid-applied membranes. These low-VOC options are manufactured to comply with the stringent SCAQMD requirements in place in Southern California.

### **Low VOC Options – Liquid-Applied Membranes**

AIR-SHIELD™ LSR LOW VOC (VOC Content: 85 g/L)

AIR-SHIELD LMP (GRAY) LOW VOC (VOC Content: 72 g/L)

AIR-SHIELD LMP (BLACK) LOW VOC (VOC Content: 65 g/L)

AIR-SHIELD TMP LOW VOC (VOC Content: 56 g/L)

### **Zero VOC Options – Prefabricated Sheet & Liquid-Applied Membranes**

AIR-SHIELD LM (VOC Content: 0 g/L)

AIR-SHIELD SMP

AIR-SHIELD Self-Adhesive Membrane with MEL-PRIME™ W/B

This is only a guide and regulations are constantly changing. It is the responsibility of the installer, specifier and licensed design professional to always confirm all local, state and federal regulations prior to installation. W. R. MEADOWS cannot be held responsible if conformance to all regulations is not confirmed prior to installation.
