

MED-CURE™

A Cost-Effective Method to Effectively Cure, Harden, and Dustproof Fresh and Existing Concrete

MED-CURE offers three unique features in one
- it cures fresh concrete while also hardening and dustproofing existing concrete.

Since 1926, W. R. MEADOWS has been a leader in developing products that protect, harden, and dustproof concrete surfaces. These water-based materials meet VOC regulations across North America and the products have been used successfully in projects throughout the world. With W. R. MEADOWS products, you can ensure your concrete floor is durable, sustainable, attractive, and long-lasting.

MED-CURE is a ready-to-use, water-based, VOC-compliant concrete curing agent, hardener, and dustproof. It is residue-free and contains no wax, resin, or other materials that would inhibit the bond of subsequent coatings and/or treatments over substrates treated with MED-CURE.

MED-CURE is ideal as a curing aid as well as for hardening and dustproofing exposed concrete floor slabs, sidewalks, driveways, beams, columns, etc. It can be used to provide a dust-free surface on concrete floors to be painted or covered by resilient, carpeted, wood, or synthetic flooring.

FEATURES/BENEFITS:

- Meets the moisture retention requirement of ASTM C309 on hard trowel concrete.
- Penetrates to aid curing, as well as to harden concrete, in one easy application.
- Minimizes hair checking, thermal cracking, dusting, and other defects.
- Does not prevent the adhesion of subsequent coatings, treatments, or flooring material.
- Tinted product available which aids in identifying coverage. (Will dissipate with exposure to UV.)
- Ideal for new, old, interior, exterior, horizontal, and vertical concrete surfaces.
- Dries fast and may be recoated if desired.
- MED-CURE is a curing aid formulated to supplement the LIQUI-HARD Line. MED-CURE is ideal to cure freshly placed concrete in preparation for an application of LIQUI-HARD or LIQUI-HARD ULTRA.
- VOC-compliant.
- Does not prevent the adhesion of subsequent coatings, treatments, or flooring material. (Always apply to a small test area first.)
