

SIL-CRETE™

SIL-CRETE is a proprietary product that is formulated for interior and exterior concrete.

When applied to fresh concrete, SIL-CRETE helps to reduce water evaporation and improves the surface integrity of the concrete.

SIL-CRETE is a premium-grade curing aid designed for interior and exterior broomed and trowel-finished concrete surfaces. The product will protect and improve the surface integrity of concrete.

When properly applied, the product is residue-free and treated concrete will accept a later application of a W. R. MEADOWS silane sealer, such as the PENTREAT™ 244 series or INTRAGUARD™.

FEATURES/BENEFITS:

- Improves the surface integrity and durability of concrete.
- Reduces rapid water evaporation from fresh concrete.
- Creates uniform concrete appearance in properly designed and placed concrete mix.
- Can be used in conjunction with the PENTREAT 244 series or INTRAGUARD from W. R. MEADOWS to provide water repellent/chloride-resistant protection.
