**X-FOAM** X-FOAM is ideal for use as an expansion, contraction, and/or isolation joint in swimming pool decks, curb and gutter work, floor slabs, pavement patch repair, sidewalks, driveways, plazas, parking decks, highways, and airport runways. The use of X-FOAM expansion joint combined with proper sealing and joint design per American Concrete Institute guidelines can help reduce unwanted cracking and early joint edge deterioration.

### FEATURES/BENEFITS:

- Meets ASTM D8139-17: Standard Specification for Semi-Rigid, Closed-Cell Polypropylene Foam, Preformed Expansion Joint Fillers for Concrete Paving and Structural Construction
- Easy to carry - will not break.
- Easy to install.
- Good resistance to many types of chemicals, including solvents and fuels.
- Can be used in interior or exterior applications.
- May be easily scored with a razor tool to create a void for POURTHANE® or DECK-O-SEAL®.
