

CEM-KOTE™ FLEX ST

A cementitious waterproofing compound designed for positive and negative waterproofing of concrete structures in new construction and restoration.

CEM-KOTE FLEX ST is a cost-effective solution to traditional resin-based linings and does not require a dry concrete substrate during application.

CEM-KOTE FLEX ST is manufactured by:
GEMITE® PRODUCTS, INC.
1787 Drew Rd., Mississauga, ON L5S 1J5 Canada

CEM-KOTE FLEX ST is a highly flexible, breathable, two-component cementitious slurry. The product is designed for water and wastewater tanks, secondary containment structures, tunnels, concrete slabs, balconies, and patios with light to medium traffic.

CEM-KOTE FLEX ST is designed for ease of use and creates a flexible barrier against the ingress of moisture and corrosive chemicals. The product will bridge minor cracks and will work on renovating old structures as well as protecting and waterproofing brand new concrete surfaces.

FEATURES/BENEFITS:

- ANSI/NSF 61 Certified for Potable Water (Barrier Materials).
- Superior flexibility.
- Bridges substrate cracks up to 1/16" (1.6 mm).
- Long term crack resistance.
- Fast cure waterproofing.
- Approved for potable water tanks (>38 m³ - 10,000 gal.)
- Superior freeze/thaw resistance.
- Excellent salt scaling resistance.
- Effective protection against acid rain.
- Self-curing.
- Continuous water immersion possible.
- Superior negative/positive waterproofing.
- Breathable.
- Salt resistant.
- Easy mixing & application = sprayable.
