

# DECRA-SEAL™ OTC

Non-Yellowing, Acrylic Curing and Sealing Compound  
for Concrete and Decorative Concrete

Your style is decorative concrete creativity;  
our substance is premium-grade concrete protection.

**DECRA-SEAL OTC** is designed for various applications, including exterior concrete surfaces, sidewalks, driveways, patios, swimming pool areas, and exposed aggregate, as well as any exterior surface where protection and sealing of concrete is desired.

**NEW** proprietary formula adds working time and reduces bubbling and “spider webbing,” even in elevated temperature applications.

Tired of using the “new” VOC formula acrylic sealers that bubble and are next to impossible to apply at any time during the day? So were we!

**W. R. MEADOWS** has developed a proprietary blend of VOC-exempt solvents that, when combined with true non-yellowing acrylic resins, offers industry leading working times as well as superior resistance to bubbling and spider-webbing.

**DECRA-SEAL OTC** was specifically developed for decorative concrete, although it is just as effective on plain gray broomed concrete.

For a VOC-exempt cure and seal that works, you can trust the almost 90 years of experience that **W. R. MEADOWS** has to offer.
