

# MEL-ROL®

MEL-ROL waterproofing system is a flexible rolled and self-adhered waterproofing membrane.

Waterproofing is not a one-size-fits-all proposition. That's why W. R. MEADOWS offers an entire family of products, including MEL-ROL, to fulfill your construction needs.

MEL-ROL waterproofing system provides a cost-effective answer to properly waterproof foundations, vertical walls, and below-grade floors in residential and commercial construction.

It is equally effective for use as between-the-slab waterproofing on plaza decks, parking decks, and structural slabs. MEL-ROL may be used as a waterproofing membrane to isolate mechanical and electronic rooms, laboratories, kitchens, and bathrooms.

MEL-ROL features and benefits include:

- Provides cost effective, flexible, versatile, dependable, positive waterproofing protection against damaging moisture migration and the infiltration of free water.
- Offers a quick and easy-to-apply system for maximum productivity.
- Special membrane-to-membrane adhesion provides additional overlap security.
- Meets or exceeds the test requirement of all currently applicable specifications.
- Components work together for positive waterproofing protection.
- Handles with ease on the jobsite.
