**VOCOMP-20** provides a durable film for efficient moisture retention once properly applied. VOCOMP-20 appears milky white in the container and, when first applied, leaves a bluish cast on the concrete for easy visual confirmation of coverage. It dries clear to provide a transparent sheen finish. The sheen can be controlled by the number of coats applied.

VOCOMP-20 resists yellowing from ultraviolet exposure and provides a durable, long-lasting finish that offers improved resistance to chemicals and wear.

VOCOMP-20 may help minimize hair-checking, premature cracking, dusting, and spalling. However, good concrete and good concreting practices should be used, as VOCOMP-20 is not a cure-all for improperly designed, placed, and/or finished concrete.

#### FEATURES/BENEFITS:

- Ready-to-use compound cures and/or seals concrete in one application
- Permeable film allows moisture in cured concrete to evaporate
- Minimizes hair-checking, premature cracking, dusting and spalling
- Protects and enhances the natural appearance of concrete
- Offers improved resistance to chemicals and wear
- VOC-compliant
