

September 12, 2025

W. R. MEADOWS certifies the following information for 2200-WHITE Series Poly-Alphamethylstyrene Concrete Curing Compound:

LEED v4.0/4.1 SS: Heat Island Reduction

This credit focuses on permanent site elements when evaluating Solar Reflectance Index (SRI) requirements.

Cures are considered temporary materials and, therefore, SRI does not apply.

LEED v4.0/4.1 MRc3: BPDO – Sourcing of Raw Materials

N/A - Applies to permanently installed products only.

LEED v4.0/4.1 EQc2: Low Emitting Materials

VOC Emissions: When used in concrete structures, this product is exempt from VOC emissions testing. It is not classified as an interior wet-applied finish—such as paints or coatings applied to walls, floors, or ceilings—that would otherwise require VOC emissions testing.

VOC Content:	2245-WHITE	319 g/L	SCAQMD Rule 1113
	2250-WHITE	290 g/L	SCAQMD Rule 1113
	2255-WHITE	214 g/L	SCAQMD Rule 1113

Asbestos Statement

This product does not contain intentionally added asbestos. To the best of our knowledge and based on supplier disclosures and current manufacturing practices, no asbestos-containing materials are used in the formulation or production of this product.

If field sampling and/or field or laboratory testing be required, W. R. MEADOWS cannot be held responsible for any cost incurred if this product is used prior to receipt of that approval.

Should you have any questions or require additional information, please feel free to contact Technical Services or your local W. R. MEADOWS Representative.

Sincerely,

Kimberly Ann Lombardozzi, LEED AP ID+C, WELL AP, fitwel Ambassador
